You can lose money by investing in the Fund. Any investment in the Fund should be part of an overall investment program, not a complete program. The Fund is subject to the risks associated with its investments in emerging markets securities, which tend to be more volatile and less liquid than securities traded in developed countries. The Fund's investments in foreign securities involve risks related to adverse political and economic developments unique to a country or a region, currency fluctuations or controls, and the possibility of arbitrary action by foreign governments, including the takeover of property without adequate compensation or imposition of prohibitive taxation. The Fund is subject to risks associated with investments in debt securities, derivatives, commodity-linked instruments, illiquid securities, asset-backed securities, CMOs and small or mid-cap companies. The Fund is also subject to inflation risk, short-sales risk, market risk, non-diversification risk and leverage risk. Please see the prospectus and summary prospectus for information on these and other risk considerations.
